Falls Five Miles and Lives With Eyes Frozen

(By Associated Press) DAVENPORT, Ia., Feb. 28.—Major R. Schneider, who yesterday fell more than five miles in two minutes after starting the world's altitude record and miraculously escaped death, yesterday in an army hospital near Davenport, Iowa, after being taken from a patrol hospital and determined to make an attempt at the first opportunity.

DRIFTING UNDER THE SAN PEDRO

Progress for the week ending February 24 at the Consolidated San Pedro Silver Mining company, was as follows:

San Pedro The east face of the first level was advanced 7 feet, making the total distance from the shaft to the 75 feet. The ground continues hard but is more mineralized. Both levels are in good milling order. The last sample of sacked ore ran \$226.

In the main workings the east level was advanced 4 feet, making the total distance from main crosscut now 11 feet only two rounds were drilled as the men were used for other work.

Pipe for water and air is being put on the Ernst level in preparation for drifting east until under the San Pedro shaft when raising will start from both Ernst and Barcelona levels. A raise on ore is being started at the intersection of the main Barcelona drift and main crosscut. This shows a width of nearly five feet of fine ore.

The Ernst raise is now in shape for handling the muck from the sub-level which is 50 feet above the Ernst drift and of unknown length west. It is about 150 feet long to the west of the Ernst raise. There has been considerable caving in both directions.

On account of heavy snow storms, not much work could be done at the mill site or on the pole line.

ENLARGING ELKS CLUB HOUSE

On Monday morning Tonopah lodge of Elks will begin the serious work of tearing out the premises now occupied by the C. & P. cafe which will be converted into a banquet hall, with all the accessories required. The lodge contemplates making other important changes upstairs by installing two pool and two billiard tables, enlarging the card and lounge rooms. The improvements will give more room upstairs which will be used to advantage by the addition of some new furniture. The improvements will occupy two or three weeks in the making.

WINGFIELD ON HIS WAY TO RENO

George Wingfield is on his way west and will arrive in Nevada either tomorrow or Monday, according to the expectations of his friends who have been advised to that effect. For over a month all kinds of stories have been rife concerning Mr. Wingfield's whereabouts and physical condition and the most commonly repeated report was that he was in Johns Hopkins hospital on a serious operation. Another was that the young Nevada millionaire was at Havana arranging for the construction of a million dollar hotel. None of these reports was warranted. Mr. Wingfield has not been sick at any time while in the east and, so far as known, he was in Baltimore at all.

PREMIUM ON CRIME IN NYE COUNTY

To The Tonopah Bonanza: I was greatly disappointed on reading in the Bonanza that D. N. Fulcher, the confessed forger and check kiter had been paroled before he had been a week in state prison. This was the first case of the kind where the credit of the offender was clearly set forth without any chance for an excuse. The prisoner was brought back at a great expense to Nye county and after being entertained as a lodger in the county jail at the expense of the taxpayers, was transferred to the state prison to which he had been committed for an indeterminate sentence. The culprit made no defense, his conduct which was without a single mitigating circumstance, yet I read the "coming to mitigate circumstances" the trial judge, the prosecuting witness and others asked a petition for parole. What's the use of going to all this expense when it would have effected a great saving to leave such an offender to the mercy of the law in Seattle. I think this is nothing more than a clever ruse on the part of Fulcher to protect himself from the officers of Texas, California and Colorado who want him returned to their respective states for trial. Under the parole from Nevada Fulcher becomes a free man who can defy the authorities of states whose laws he is alleged to have broken in the same way that he did in Nevada. Texas does not deal this way with its criminals and Fulcher knows enough about the game to star where he has sufficient influence to prevent him from paying the penalty for his numerous crimes. This treatment of an arch offender places a premium on law breakers and offers worthless checks of which Tonopah has not lacked too much during the past month. ONE OF THE VICTIMS.
